

GISUBIZO GISELE

STUDENT

Motivated and innovative final-year Software Engineering student at Adventist University of Central Africa (AUCA) with hands-on experience in building responsive web and mobile applications using React.js and React Native. Skilled in crafting seamless user interfaces and intuitive user experiences through thoughtful UI/UX design. As a tech member at kLab Tekher, I collaborate on real-world projects and continuously push boundaries in problem-solving, creativity, and teamwork.
